

Biometric Time management & Access control solutions

FINGERPRINT ENROLMENT DEVICE

- 

125KHz Proximity Card 125KHz Proximity Card and Fingerprint Enrollment Support
- 

Live Finger Detection Detecting fake fingerprint materials such as paper, file, silicon, rubber, etc.
- 

Fingerprint It is convenient to use as it does not require users to carry special tools for verification. It is a high-tech fingerprint recognition system that uses fingerprints that have no risk of replication or unauthorized use.
- 

High-capacity Fingerprint Recognition Sensor Uses 500DPI high-capacity fingerprint recognition sensors for fast and accurate verification.
- 

USB Insert into PC USB terminal for easy recognition and installation.
- 

Multiplayer Interlocks with PC security software (VIRDI Secure Pro) for various uses from PC security to PC control
- 

Fingerprint Registration When interlocking with RF verification server (VIRDI Access Server RF), fingerprints may be registered/deleted.
- 

Design The winner of the 2006 Venture Design Award! It is satisfactory for both capacity and design.
